

BioPolynet Inc. is a clean-tech venture with a vision of delivering cost-effective, innovative, and environmentally sustainable solutions in a world that embraces a circular economy. The company's mission is to focus on designing and developing unique and proprietary biopolymeric network systems with functional customization for a wide range of small, medium, and large-scale industrial applications. The company's patent pending BioNanoCoil (BNC) can be uniquely custom-designed to meet the needs of a wide range of large volume market segments including mineral tailing ponds recovery, hydraulic fracturing fluids, dewatering processes, fire suppression, and numerous other potential markets.
