### DETERMINING WHAT IS APPLICABLE TO YOUR OPERATION

In order to determine which sections of the SFCR apply to your operation, we have streamlined the Timeline for Processed Fruit or Vegetable Products from the Canadian Food Inspection Agency (CFIA) website. This enables you to decide which applies to your situation, as the requirements are very specific to the activities conducted at your operation. For example, if the only activity you do is sell processed fruit or vegetable products at retail, then you only require traceability; you would then proceed directly to the Traceability section in this guide.

What is your activity?	Do I need a License?	Do I need a Preventive Control Plan?	Do I need Preventive Controls?	Do I need Traceability?
